Week 7 Progress

Milestones Met'

- Refactoring to be more in line with software design principles
- Base combat works and heroes can engage with their actions/abilities

Next Week

- Complete a whole dungeon run
- polish up visuals and tracking in the game

What did I learn?

- Software design principles are extremely important
- Talking with AI this week really opened my eyes on just how powerful it can be
- A clear vision and documentation on how things should work is very important

Burndown Rate

- 2/3 features complete
- 1/3 feature in progress
- 8/13 requiurements complete
- 5/13 requirements in progress
